WOOD'S
DISCOUNT
TABLES.

THE following Tables will be found to contain, although in a pocket form, and at a very moderate price, every necessary information relative to the amount to be taken off any given sum from 1d. to £200. In all cases where the fractional parts of the Discounts do not amount to half a farthing no notice has been taken of them; but where they reach that sum an additional farthing has been reckoned.

The Publisher has again to express his thanks to his friends for the high encomiums and universal patronage bestowed on this little work, which he finds from the great increase of commerce is becoming every day more in request—and to assure them that this will be found equally correct with former editions.
